

Cubanisms is a band driven by the native Cuban instrument the “Cuban Tres.”

Created in July 2016 in Kansas City, Missouri, USA, and still in its infancy, Cubanisms presents unique and inspired arrangements giving the band a genuine and exhilarating Cuban-Latin feel, with a wide repertoire including many traditional Cuban rhythms, as shown in their debut album “Acento Cubano.” (Cuban Accent)

“Cubanisms is an excellent musical proposal in septet format that gives life to classics with a new touch, and an implicit magic that makes you fall in love from the first cut”
