

## CALL FOR ARTISTS

Mattie Rhodes, and PCORI\* Art Project are excited to present an open call for local artists who are interested in working collaboratively, to create a unique, meaningful, and interactive multi-faceted installation. This call extends to artists who find themselves working within community engagement, health, and who hope to create an informative impact through art making. The end product will be based around a team effort and will be related to life with Peripheral Artery Disease (PAD) and ways to treat this condition. The PCORI research team followed almost 800 patients with PAD from the Kansas City area and across the nation for 1 year and found many useful and eye-opening information in relation to the struggle of living life with PADS. In collaboration with Mattie Rhodes, we wish to create a meaningful **collaborative community art project** that will shed light on this condition.

All artists, and mediums are encouraged to apply for this call, for further information contact Jenny Mendez Project Creative Director [jmendez@mattierhodes.org](mailto:jmendez@mattierhodes.org) or Kiki Serna Project Coordinator [kserna@mattierhodes.org](mailto:kserna@mattierhodes.org)

Submit your application or letter of interest to [kserna@mattierhodes.org](mailto:kserna@mattierhodes.org)

*\*Patient-Centered Outcomes Research Institute (PCORI) Eugene Washington PCORI Engagement Award*
