

## Bio, Statement, CV - Jackie Warren

**Jackie Warren** is an artist with a Bachelor of Fine Art degree from the University of Kansas, and has a background in business. She has had solo shows, participated in juried shows along with numerous invitationals in addition to owning and operating her art consulting business, Artistic Solutions, for over 25 years. Her knowledge and experience lead to participation in the conception and development of ARTichokes; a multi-use gallery in Leawood, Kansas. Ms. Warren has volunteered with various art organizations over the years as a juror and spokesperson, as well as Marketing Director and Board President of the Kansas City Artists Coalition. She currently has a studio and gallery in the Kansas City Crossroads Arts District.

*Warnings have been issued around the globe. Our world is moving rapidly toward the point of no return for a healthy environment in which to live and prosper. How does an artist make a compelling statement with their creations to bring attention to that fact?. A variety of materials are employed to achieve my commentary on the environment and the human activity contributing to the destruction of our world as we know it. Action follows only if the mind is engaged enough to consider a problem. The imagery of my pieces help guide the viewer to consider their part in both the creation of the problem and perhaps the solution on an individual scale.*

### CV - Jackie Warren
