About Me

A contemporary abstract artist utilizing acrylic paints and mediums to unite vibrant color with compelling patterns, whether a single canvas or multi-piece installation. I treasure nature, energy, food, exploring, animals, and my dear family. They all inspire my work!

Artist Statement

Every piece of art feels like a small miracle. A gift, that drives me to keep birthing more. I am always on the search, tasked to find balance: moving, pushing, pulling paint, to feel for the ultimate placement. Connecting with my deeper self has allowed exciting messages to come through my work.

Creating reminds me to let go and be grateful for the awesome power of change. It has taught me that in life if something isn't what I want it to be, I have the power to make a change. With change comes growth, risk, progress, and beauty.

If something isn't what I want it to be, I have the power to change it.
We all possess this power.
